(a) Domains and the $J = 1$ front
Full domain, 250 × 100 mm
Inflow, 27° to the wall
2535 m/s, droplets
Reduced, 120 × 45 mm
Crop, 100 × 25 mm
ODW: computed to $y = 9$ mm (solid),
Ref. Fig. 3(c) above (dashed)
Measurement
plane
Jet, $x = 50$ mm
Wedge surface, leading edge at $x = 0$
y (mm)
x (mm)
(b) Near the jet: reduced-domain front at 70 μs and the heights that define the base
Crop top, $y = 25$ mm
Base: median of the front at $y = 4$–6 mm
Measurement plane, $x = 100$ mm
0.5 mm jet
y (mm)
x (mm)
